and Joe Patchen in the Great Race at Lexington Went at a Merry Clip With lobert J. in the Rear and John Gentry Not in the Hunt, But Near the Home Stretch Robert Moved Up and Passed Under the Wire by a Small Margin.

Lexington, Ky., Oct. 16.-Robert J oved himself the best of the starters the free-for-all pace to-day and vanished the two star performers, John Gentry and Joe Patchen, quite haully. His strongest rival for first honrank Agan, who figured in the three Boone Island, a distance of 31 knots eats, all the route in each a close secnd, but a break near the wire of the sciding heat caused him to be placed an equal distance apart of 6.2 knots. ast and Gentry second. Robert J. and The starting point was crossed at 19:30. be Patchen sold for \$50 each, while The second buoy was left astern at

In the first heat Agan drew the pole, with Robert J, on the outside, and it was a merry clip to the half in 1:011/2 gainst a stiff wind. Patchen and Frank Agan went like a team, with Robert J. wo lengths back and Gentry not in the unt. Swinging down the homestreich leers moved up with Robert J. and utfooted Agan by a small margin. In he next two heats it was Robert J. all the route and the four were bunched. leers reserved his speed for the last, where Mr. Hamlin's great pacer show-ed he was by odds the best to-day.

Lynne Bel proved himself a game and reliable race horse to-day in the 2:11 rot. Five of the Transylvania starters were in to-day's event and Lynne Bel proved to be the best. Altao won the third heat in 2:11. In the next heat Mo-Dowell went away with Altao at a killing clip, making the half in 1:04%, and was a length in front of Lynne Bel. At the seventh furlong Altao made a standstill break and dropped out.

The 2:20 pace proved tiresome before conclusion was reached. Madge won a heat last evening and after one today appeared distressed, but revived in the seventh and distanced the two heat winners, Harry Victor and Rusie Clay, in very slow time.

The pair of pony trotters, Winnie D. by Aaron Wilkes, and Algeria Queen, by Algeria Wilkes, lowered the world's record of 2:46 to 2:32%, double to a bleycle wagon, making a new record for a trotting team under 1414 hands. They are owned by A. J. Welch of Hartford,

Time-2:16¼, 2:14¼,

a most enjoyable time.

George R. Dougherty, one of the young men charged with having illimit relations with Annie Schwab, a four teen-year-old girl, was tried before Justice Clark in Hamden yesterday afternoon. Probable cause was found and he was bound over to the superior court under \$1,000 bonds furnished by his father, George R. Dougherty of 63 Beach The cases of the other men concerned will be tried in the city court October 28.

The Rioting Resumed.

Vienna, Oct. 16 .- The rioting at Agram, which began on the 14th inst. on the occasion of the opening of a new theater by Emperor Francis Joseph and was resumed yesterday, was continued last evening. The Crotian students among whom the disorder originated. last night tore the Hungarian flag from the statue of General Jellachich, and after submitting it to many indignities burned it. An enormous crowd had gathered on the streets and cries o 'Down with the Magyars' were heard on all sides. The mob remains intense-Iv excited against the Magyars and SerTRIAL OF INDIANA.

The New Battleship Made an Excellent showing.

Boston, Mass., Oct. 16.-The battle ship Indiana was given a preliminary un over the official trial course today and so successful was the trial that when the boat reached the upper end of the course Mr. Edwin S. Cramp decided that it was unnecessary to speed her back again. The Indiana got under way at \$:30 a. m. from Boson light and started down the bay to Cape Ann. At 8:45 the ship was going ahead at full speed, and when about seven miles from the starting line the forced draft was turned on, was the New England gelding The course was from Cape Ann to and was marked by six can buoys at agan and Gentry brought \$15 as a 10:55, the speed between the two buoys being fifteen knots. The third buoy was passed at 11:20, the speed between the second and third buoy being 15.1 knots. The fourth can was alongside at 11:43, the speed between the third and fourth being 15.75 knots. The fifth buoy was passed at 12:07, the speed

> speed for the run up was 15:31. Although the Cramps expected to de lfteen knots easily they were more than pleased with the showing she made on the run. The tide was running against her rather fast and cut off by % of a knot. There were two particularly noticeable things developed in the run. One was the absolute absence of the usual vibration the powerful engines of a big ship make and the other was the bow wave castoff by the ship. The torpedo tube in the bow threw up quite a wave, but the bow of the boat itself cleft cleanly through the water and the lateral waves, instead of extending many feet on each side of the ship did not extend much further than fifteen feet, and then they converged sharply inwards and clung to the vessel's side, leaving no side wave at all.

between the fourth and fifth being 15.64.

The sixth and last buoy was passed

at 12:32, the speed between the fifth

and sixth being 15:17. The average

When Mr. Cramp found that the ship had done so remarkably well on the run up he concluded not to push her on the way back. The forced draft was taken off, and eighteen minutes were consumed in turning. The ship passed the first buoy on the return at 2:15, and she logged back at an easy average speed of 13.3 knots, passing the last buoy or the return trip at 3:13. The engines of the Indiana are, with one exception, the finest that have ever been turned our by the Cramp company. The engines of the cruiser New York were the mos perfect that had ever been previously built by the Cramps, and those of the Indiana worked as well as did those of the New York on her trial trip. The engines ran as smoothly as if they were engines ran as smoothly as if they ad been working for months and no the slightest heating of any of the cross heads or journals was observed. The average revolutions of the screws on the run up was 128 and the maximum 131 The steam pressure was 159 pounds and the air pressure in the fire room wa one inch of water. Ninety-two hundred horse power was developed. This is

200 more than the amount for which the ngines were designed. The run of the Indiana from Philadel phia to Boston in the nasty head sea she met and this run under high pres sure vindicated the title of American naval constructors and American ship wrights as the best in the world. For eign critics have declared that the In diana would be top heavy and that she would roll herself to death in any sor

Never were prophecies more complete ly refuted. The Indiana, with the heaviest weight of armor and guns above wa ter of any ship in the world, rides the seas like a vacht. The sea was smooth but the long swell that is always felon the ocean, was running. To those standing on the deck of the ship there was no more motion perceptible than is felt in crossing a river on a ferry boat The Indiana anchored at night off Bos

of a sea.

Thursday the boilers and grates will e given a thorough cleaning and or Priday the official run will be made in to-day's run the best handpicked Pocahontas coal was used. Although none of those connected with the boa will make any claims it is not unlikely that she will do sixteen knots on her of

Winans' Good Shooting.

London, Oct. 16 .- The final for the re viver championship of the North London Rifle club took place to-day and was won by Walter Winans of Baltinore by a score largely in excess of his previous performances. This is the third year that this club has had a recolver championship shoot and Mr. Wi nans has won it each year. Mr. Winans also won the revolver championship of the South London Rifle club three weeks ago for the eighth year. In six onsecutive shots Mr. Winans made the highest possible score and in the ter shoots necessary to complete the serie he made 412 points out of a possible 429

ONE THOUSAND INVITATIONS. Brilliant Wedding in Meriden-New Haven

Meriden, Oct. 16.-A society wedding occurred at the Corn r church at 7 'clock to-night. Miss Gertrude Cynthin Wheatley, daughter of E. C. Wheat. ley, was married to William Alfred Hall. Rev. Asher Anderson officiated. About 1,000 invitations were issued Guests were present from New York, Boston, Springfield, Hartford, New Haven, New Britain, Wallingford and Berlin. A reception followed at the resi lence of the bride's parents.

The groom is a bookkeeper at Bradley & Hubbard's and the bride is the soprano of the church in which she was married. She formerly sang in quartets at the Dwight Place Congregational church, New Haven, and the Center Congregational church, this city. During her absence Miss Elizabeth C Hull of Wallingford will take her place in the church quartet.

The groom's present to the bride is a gold watch and chain, the watch being set with diamonds. The groom's presents to the ushers are pearl scarf pins. The bride's gift to the maid of honor is an emerald and pearl ring.

ANOTHER IN MERIDEN.

The First Methodist church was filled with a brilliant assemblage this evening when at 6:30 the marriage of Milon Warner Hall and Miss Viola Ludngton Clark occurred. The groom is the bookkeeper and confidential man for the Cheshire Manufacturing company, and is universally esteemed. The bride is the talented daughter of Mr. and Mrs. Benjamin B. Clark, and is a favorite in social circles. The seating of the guests was in charge of Messrs Harry W. Crawford of New Haven Olin W. Hill of Wesleyan university Charles Hall, a brother of the groom of Cheshire, and E. C. Skilton of Waterbury.

No Prize Fight in Tennessee.

Nashville, Tenn., Oct. 16 .- Governor Turney said to-day that if the prize fight lovers attempted to pull the Corbett-Fitzsimmons mill off in Tennessee they would meet a hot reception from the civil and military officials. He purposed to use the entire power of the chief executive, if necessary, and to proclaim in a forcible way that no prize fights should take place in Tennessee

HARVARD'S EASY TIME.

Had No Trouble in Defeating Williams at Football.

Boston, Oct. 16 -- Harvard had an easy time with Williams on Soldiers' field today and rolled up a score of 32 to 6 in two halves of twenty and fifteen minutes each.

The score would have been larger but for the poor work of the Harvard tackles Stevenson and Houghton-who were continually losing ground by holding and off-side plays. The game was pretty to look at on account of the numerous ong runs by the Harvard backs, but began making their way to Music hall terman and Brewer were able to make vities. Previous to the hanquet the this distance almost every time they officers-elect were publicly installed.

were called upon. For Williams Draper played an all around game. He punted and tackled splendidly, and did most of the good gaining for the team. For Harvard Donald, the freshman right tackle, dis tinguished himself. He tackled well and repeatedly broke through and stop ned runs. A. Brewer and Cabot made some fine tackles, but the latter was padly fooled twice on fake kicks. Once Draper got around him for twenty vards. The center was strong, with the exception of Rice at left guard, but this s his first 'varsity game, and some a wance must be made for his work Stevenson at left tackle scrapped with his man and paid little attention to the game, and Houghton, who succeeded nim in the second half made a spectacle of himself by his poor work.

cluded. A member of the conference stated afer adjournment at 5:30 that the gover or had agreed to leave the whole matter to the local authorities and the latter had assured him that there would be no prize fight, but a glove contest as indicated in the revised agreement. He stated that the government gave him positive assurance that if there was no law to prevent glove contests, and if nly a glove contest was contemplated, he would not invade the city with an

armed force to prevent it. Another member of the conference mmittee stated that he could only reort progress of a favorable nature a the time of adjournment. The gover nor's views had undergone a change caused by a more thorough understand ing of the intentions of the principals. The program is now to make a test casby causing the arrest to-morrow of Ma her and O'Donnell, who are both in near proximity to the city. GREAT STEAMSHIPS RACING.

St. Louis and Majestic Fighting for Mail Carrying Privileges.

The new American liner St. Louis and the White Star line steamship Maestic started yesterday on a voyage which promises to be most interesting. The New York Evening Sun says: While neither of the companies will admit it, there is no doubt that the two steamships intend to race across the Atlantic. Each will try to land its mail first in London, and that steamship which is successful will unquestionably receive henceforth the greater part of the foreign mail.

That the postoffice authorities have confidence in the St. Louis is shown by the fact that they have intrusted to her double the amount of mail which the Majestic carries. The superintendent of foreign mails said this morn-

ing; "We had, approximately speaking, about 750 bags of mall to send to the other side. Five hundred of these have given to the St. Louis and the

remaining 250 to the Majestic. 'We would not have done so had we not believed that the St. Louis was capable of landing the mail in London first. On the voyage across the ocean the American boat is none the slower, and it takes her only three hours get her mail from Southampton to London. On teh other hand, while the Majestic will probably reach Queensown, where she lands her mail, before the St. Louis reaches Southampton, it will take her nineteen hours to get her mail from there to London.

REFUSED TO CHANGE TITLE

ATTACK MADE ON THE MESSAGE FROM HOUSE OF BISHOPS.

The Episcopal Convention at Minneapolis Takes a Vote, After Debate, on the Change of the Title Page of the Book of Common Prayer and Decides to Adhere

to the Old Form. Minneapolis, Oct. 16,-When the house of deputies of the Episcopal convention reassembled this morning the joint committee appointed to consider the validity of the order of the church in Sweden presented a report setting forth reasons why no minister of the Swedish church should be allowed to officiate in any

church under American Jurisdiction. The matter went on the calendar, Another attack upon the present title of the denomination made !!self manifest in the presentation of a report from the committee to consider the message from the house of bishops recommendng that the titlespage of the book of ommon prayer be changed by the omission of the words "According to the use of the Protestant Episcopal church in the United States of America," and the substitution of the words "According to American use." There was a minor-Ity report signed by J. Pierpont Morgan New York, Messrs. Biddle and Blanchard of Philadelphia, and Perkins of Kentucky, in which the proposed hange was characterized as a virtual eopening of the subject of prayer book evision, which has already been settled, and therefore unwise and to be deprecated as calculated to alarm the

nembers of the communion. A disposition to out off debate on the ssue was manifested by the delegates, and after Dr. Faude of Minnesota had haracterized the proposal as one of ad faith, and Dr. Groton of Rhode Island had spoken to the same effect, a vote by dioceses and orders was taken. It resulted: Clerical vote-Ayes 19, nays 30, divided 3. Lay vote-Ayes 12, nays

THE 1. O. O. F. PARADE.

Some Criticisms by Colonel Doherty. Waterbury, Oct. 16 .- Colonel John B. Doherty, who was chief marshal at the Odd Fellows' dedication exercises here yesterday, to-night gave an interview in which he took severely to task the Odd Fellows who deserted the parade because it rained. He said:

"Much to my surprise and annoyance look, A. Maxey Hiller, Mr. Henry G. the cantons which immediately follow-Newton, George B. Hurd, S. H. Street, ed the chief marshay and his staff in Frederick W. Skiff, Mr. Henry Bald- the parade yesterday dropped out when the first rain fell. When East Main street was reached they deserted in a body and sought shelter in the Second regiment armory. The cantons are the ects were discussed and it is expected military branches in the order and as such it had been supposed by me that they would have regard for military regulations. I intended to carry that parade over the line of march which deal of interest taken in the course this had been prepared. We were well startseason and it is probable the coming ed and it would not have been a seriwinter will prove highly enjoyable to ous hardship if the men had remained the members, all of whom will have in the line. As it was, I, my staff and the Second regiment band of New Haw ven were all that remained of the parade, and so I dismissed it. o me altogether strange and remarkable, aside from the annoyance to me, that military men should be frightened

by a drizzling rain."
